

CENTRAL TO YOUR HOME

THE BEAM STORY

Your home is at the centre of it all. It is where you dine, nest, nurture, and gather. You invest in it because it safeguards your family, provides a source of pride and is central to your family's everyday life.

At BEAM, we understand that special connection. We are at the heart of creating a clean environment and letting you enjoy your home. We are part of every chapter, helping you and your family flourish.

BEAM ... Central to your home

BEAM

FOCUSED ON CLEAN

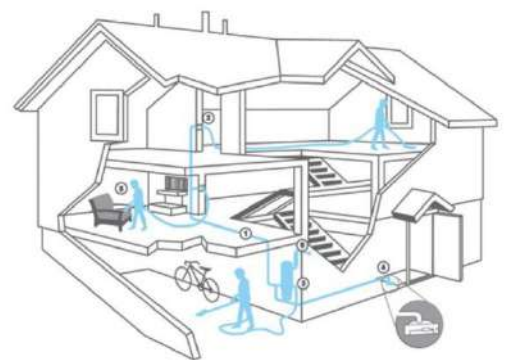

HOW A CENTRAL VACUUM WORKS

BEAM Central Vacuum Systems use specifically designed tubing installed in the walls of your home to carry 100% of the contacted dirt, dust and allergens away from your living area to the central power unit commonly located in the garage, utility room or basement.

To activate the system, simply insert the lightweight hose into a central vacuum wall inlet valve. Most homes will typically have one central vacuum inlet valve per floor averaging three per house. The flexible lightweight hose and inlet system allow you to easily move from room to room without having to push a heavy upright vacuum or pull canister vacuum behind commonly bumping into walls or valuable furniture.

BEAM Central Vacuum Systems are much quieter than most portable vacuums as the power unit of a central vacuum is located outside of the living, where the motor of a portable vacuum is in the same room you clean.

1. Tubing installed through interior walls, attic, basement and crawlspaces connects vacuum inlets to the power unit.
2. Each strategically located inlet valve lets you vacuum approximately 700-800 square feet.
3. The power unit is located away from the living area, usually in a basement, garage or ventilated utility room.
4. Innovative accessories like the VacPan can be incorporated into the system for additional cleaning ease.
5. A variety of cleaning attachments such as a crevice tool, a dusting tool and the fabric tool allows you to vacuum any type of surface.
6. Exhausted to the outside or through a HEPA filter system to leave you nothing but clean indoor air.

A man in a white shirt and dark pants is using a BEAM central vacuum system. He is holding the white motor unit and the long, flexible hose. A young girl in a pink shirt is sitting on a modern chair at a dining table, watching him. The table is set with plates, glasses, and small potted plants. The background shows a modern kitchen with white cabinets and a dark countertop.

ABOUT BEAM

MY HOME, MY BEAM

Your home is at the centre of it all. It is where you dine, nest, nurture, and gather. You invest in it because it safeguards your family, provides a source of pride and is central to your family's everyday life.

At BEAM, we understand that special connection. We are at the heart of creating a clean environment and letting you enjoy your home. We are part of every chapter, helping you and your family flourish.

65 YEARS OF EXCELLENCE

For over 65 years, BEAM has been a leading brand of central vacuum systems with a long line of innovative products to raise the bar. BEAM is now regarded as the undisputed technology and market leader in the central vacuum industry.

Our best-in-class products are now available in over 50 countries, with one out of three central vacuum systems being a BEAM system.

BEAM has also been South Africa's leading central vacuum system brand for over 20 years with an extensive national network of dealers providing support and maintenance.

When you simply want the confidence of having the best in your home, you'll want a BEAM.

PROVIDES A CLEAN AND FRESH HOME

A healthy home is a happy home. With powerful suction, lightweight, versatile convenience and durability, BEAM Central Vacuum Systems are designed to help remove dirt, dust, allergens and other debris from your living space.

COMFORTABLE CLEANING

With BEAM, vacuuming is light housekeeping, not a weight-lifting exercise or obstacle course. Move easily from task to task, level-to-level, floor to ceiling, and upstairs, with BEAM's lightweight hoses and ergonomic tools.

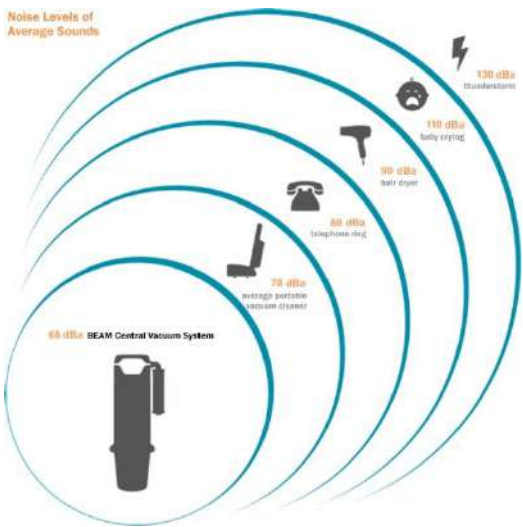

The average portable vacuum weighs 7kg. while a BEAM hose & handle is only 3kg. Which would you rather lift to clean your stairs with?

THE QUIET WAY TO CLEAN

BEAM Central Vacuum Systems are quieter than most household sounds. Vacuum whenever you want without disturbing the peace and tranquillity of your home.

With the motor located away from the living area, the quiet hush of airflow is all you'll hear. Vacuum whenever you want without disturbing anyone's activities or sleep.

SOUND LEVELS

How quiet is a BEAM Central Vacuum System? Listen to this...

A BEAM Central Vacuum System is quieter than most household noises that you are used to hearing every day. What does this mean for you? It means that you can easily vacuum your home while other activities are taking place in the room without disturbing anyone. You won't miss that important call when the phone rings. You can even talk on the phone while you are vacuuming!

CENTRAL VACUUM VS. PORTABLE: NO CONTEST

Compare how a BEAM Central Vacuum System beats a portable vacuum.

BEAM Central Vacuum Systems remove air, dirt and dust vacuumed from the home, whereas conventional vacuums may filter dirt and dust but recirculate the same air via the exhaust back into the home.

BEAM Central Vacuums are engineered with larger motors providing powerful suction for a deeper clean.

Less hassle. BEAM Central Vacuums have a self-cleaning filter and a large capacity dirt bucket for less frequent emptying. Portable vacuums have filters that need to be replaced and bags that need to be emptied regularly.

BUILT-IN CONVENIENCE

A built-in BEAM Central Vacuum System is easy to manoeuvre around furniture and doorways, upstairs, and from room to room without having to lift a heavy upright vacuum or drag a canister around behind you. With convenient cleaning tools on board, you always have the right tool for the job.

SELF-CLEANING FILTER

BEAM Self-Cleaning Filtration sustains a high level of performance.

With a BEAM Central Vacuum System there are no filters and no screens to clean or replace.

BEAM power units utilize an exclusive permanent self-cleaning filtration material from the makers of GORE-TEX fabric.

By using cyclonic forces to separate larger dirt particles and allergens from vacuumed air the permanent filter removes tiny particles at a stunning 98% efficiency at 0.3 microns.

Dust particles do not stick to the BEAM self-cleaning filter surface like conventional filter media. And most importantly, power is not lost as the bucket fills up, allowing the BEAM central vacuum system to sustain a high level of performance time after time.

The BEAM self-cleaning filter cleans itself every time the system is turned off.

BEAM CENTRAL VACUUM 295

Compact, powerful performer

Model Number : ABEAM295E

Model name : 295

The 295 central vacuum is ideal for small spaces and homes where the space for the power unit is limited. This model offers exceptional suction power, surpassing the best portable vacuum cleaners.

This central vacuum model generates a noise level of only 64 dB, making it an especially quiet device. Perfect for discreet cleaning, enjoy vacuuming at any time without disturbing those around you.

Recommendations :

- Type of residence : apartments, condos and small houses
- Approximate area : 90 m²

Features :

- 5 years Warranty [†]
The best warranty in the industry and award-winning service are BEAM traditions
- 64 dB
Makes BEAM one of the quietest central vacuums in the industry.

BEAM CENTRAL VACUUM 345

Leading quality, performance

Model Number : ABEAM345E

Model name : 345

This light-Duty system offers reliable suction in a compact, energy-efficient design, a seamless solution for those who want cleanliness with minimal effort

Recommendations :

- Type of residence : smaller houses

Features :

- 5 years Warranty [†]
The best warranty in the industry and award-winning service are BEAM traditions

[†] Domestic use only. See warranty documents

BEAM CENTRAL VACUUM 360

Modest and powerful

Model Number : ABEAM360E

Model name : 360

The Medium-Duty unit is designed for homes who need a bit more power. It handles daily messes with ease—whether it's carpet, tile, or hardwood—while maintaining quiet operation and energy efficiency. A perfect balance between performance and practicality, this model is a favourite for families and busy households.

Lifetime Limited Warranty

BEAM Central Vacuum Systems

Your BEAM Central Vacuum System is protected by a limited lifetime warranty. We guarantee that the unit canister will be exempt of any material or manufacturing defect.

The motors and electrical components are guaranteed for a period according to conditions below:

- Beam 295 ABEAM295E power units have a 5-year warranty on Motors and Electrical Components
- Beam 345 ABEAM345E power units have a 5-year warranty on Motors and Electrical Components
- Beam 360 ABEAM360E power units have a 5-year warranty on Motors and Electrical Components
- Beam 475 ABEAM475E power units have a 7-years or maximum of 750 hours warranty on Motors and Electrical Components, whichever occurs first.
- Beam Commercial Warranty on Motors and Electrical Components 90 days

Claim Conditions

This warranty is only valid if original Newark purchased stock, or components are available at the time of the claim. If the original stock or parts are no longer available, the warranty claim shall be considered void with respect to those items.

All warranty claims are subject to the return of the defective or damaged item to the warehouse. Claims will only be considered following a full inspection of the returned item to determine the nature and cause of the fault. No replacement will be issued until such inspection has been completed and the claim approved in accordance with BEAM's warranty terms.

This warranty is valid from the date of purchase, for as long as you are the original owner, the unit is serviced annually, and the system remains at its original place of installation.

This warranty is valid only if Clearline tripconnect and LV protectors are fitted to the power units with unit registered with Clearline for protection against lightning and power surges

General

This warranty does not apply to consumable items requiring normal replacement such as belts, replacement filter bags and lights.

This warranty is non-transferable and is applicable to the original owner only.

For all models, our authorized service centre will repair or replace (at SA Central Vacuums' discretion) the defective part or parts, according to the specifications above. In order to maintain your warranty, all repairs must be made by an authorized Beam service centre, with original Beam or Trovac parts. Failure to do so could void the warranty.

This warranty does not apply to loss or damage resulting from (according to SA Central Vacuums) normal wear and tear, commercial use, abusive use, vacuum of water or hot ash or other combustible material, neglect, abuse, acts of God including lightning strikes, power surges, accidents, improper installation, improper modification or alteration, improper use and operation or failure to provide proper maintenance.

THIS IS THE SOLE AND EXCLUSIVE WARRANTY OF BEAM CENTRAL VACUUM SYSTEMS.

IMPLIED WARRANTIES, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED IN DURATION OF LIMITED WARRANTY PERIOD.

Should any defect in material or workmanship appear within the time of the above warranty, the selling BEAM Dealer should be contacted. The Dealer shall repair or replace (at BEAM's sole option), or credit, such part or parts in accordance with the applicable warranty period stated above. BEAM shall not be responsible for such service unless provided by an authorized BEAM Dealer utilizing authentic BEAM replacement parts.

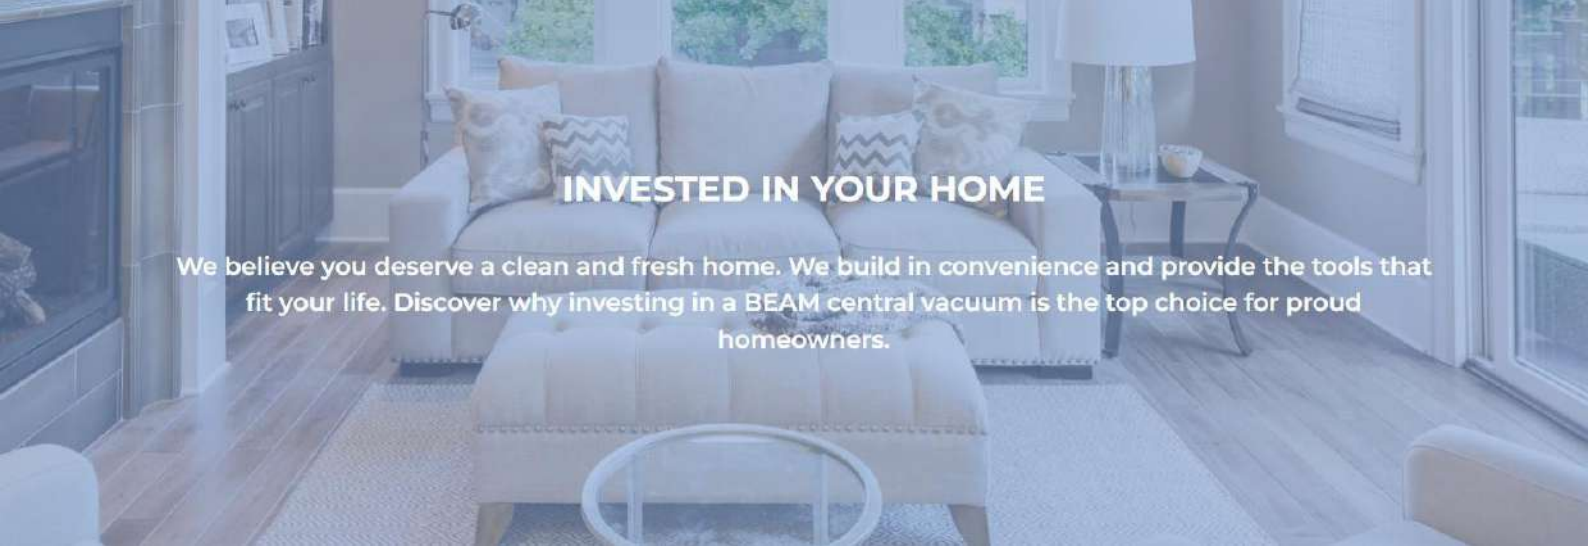

This limited warranty applies to installations in the Republic of South Africa only.

Other warranties apply to other parts of this equipment and optional accessories. Please contact the material accompanying the individual items.

BEAM SHALL NOT BE RESPONSIBLE FOR ANY CONSEQUENTIAL, INCIDENTAL, OR SPECIAL DAMAGES ARISING FROM THE USE OF THIS SYSTEM.

Keep all payment records (bill of sale/delivery slip). The date on these records establishes the warranty period. Should warranty service be required, you must submit proof of purchase. We strongly encourage you to register your warranty online at Beam.com. In the event that you do not have your invoice, you will have to provide identification with address to authorize a warranty claim.

A warranty claim must be filed, following our warranty policy, within 3 months of the component failure to be covered by the warranty.

INVESTED IN YOUR HOME

We believe you deserve a clean and fresh home. We build in convenience and provide the tools that fit your life. Discover why investing in a BEAM central vacuum is the top choice for proud homeowners.

HOME PRIDE

Your home is at the centre of your family's everyday life. Creating a clean environment where your family can flourish is central to BEAM.
